

Mojan Photography Studio

Photography is the beauty of life, captured

Time will never stand still and those moments that bring us such joy become memories in an instant. To capture such a moment and record it forever is truly monumental

the eyes are the windows to the soul

As I have practiced it, photography produces pleasure by simplicity. I see something special and show it to the camera. A picture is produced. The moment is held until someone sees it. Then it is theirs.

This is
a headshot portrait
studio whit over seven years
experience in black and white manual
and digital photography. we work as a team
and our goal is showing capturing the best
moment in your life . To photograph truthfully and
effectively is to see beneath the surfaces and record
the qualities of nature and humanity which live or are
latent in all things. Photography is a way of feeling, of
touching, of loving. What you have caught on film is
captured forever... it remembers little things, long
after you have forgotten everything. doesn't usually
come in long stretches for hours at a time, month
after month, year after year . . . but in mo-
ments. Photography is the beauty of life,
captured
